

Install Camtasia 2021

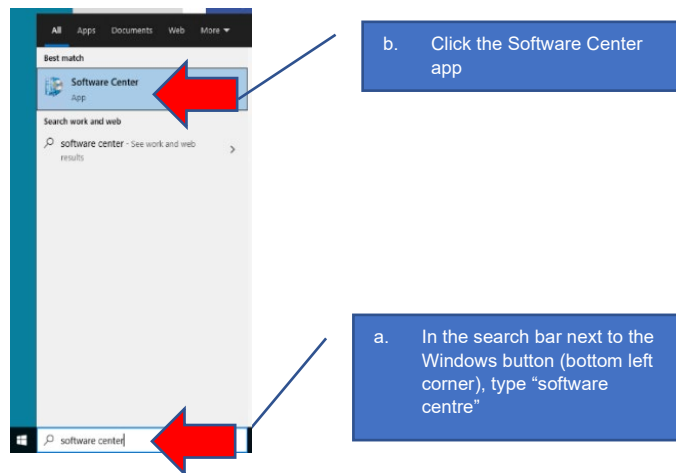

VERSION: 0.1

Tuesday February 1, 2022

Install Camtasia 2021

The following instructions will guide you through installing Camtasia 2021 on your FSRA notebook. Before you begin, save and close any work you have open. You may need to reboot after the installation is complete if you had a previous version of Camtasia installed.

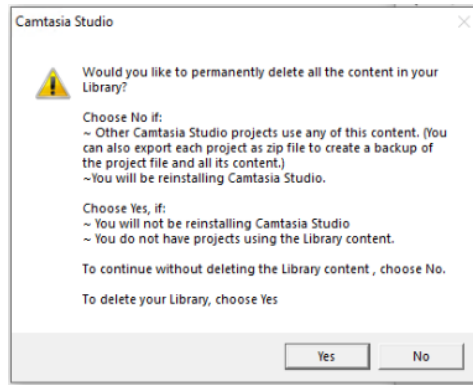

1. Close any previous version of Camtasia currently running on your notebook.
2. Open Software Centre
 - a. In the search bar next to the Windows button (bottom left corner), type “software centre”
 - b. Click the Software Center app

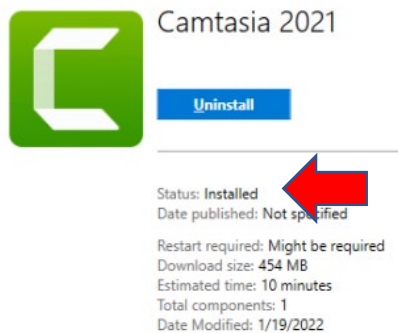

3. In Software Center, type “camtasia” in the search bar in the top right corner
4. Click **Camtasia 2021** in the search results

5. Click **Install** to begin installation. The installation will take a few minutes.
- a. If you had a previous version of Camtasia installed, you may see a pop-up similar to the one below. Click **No** to save the library content from the previous version

6. When the Camtasia 2021 installation completes, the status will change to "Installed"

- a. If you had a previous version of Camtasia installed, you may receive a restart prompt. If prompted, restart your computer
