

# **Confirm VPN Connectivity**

VERSION: 1.0

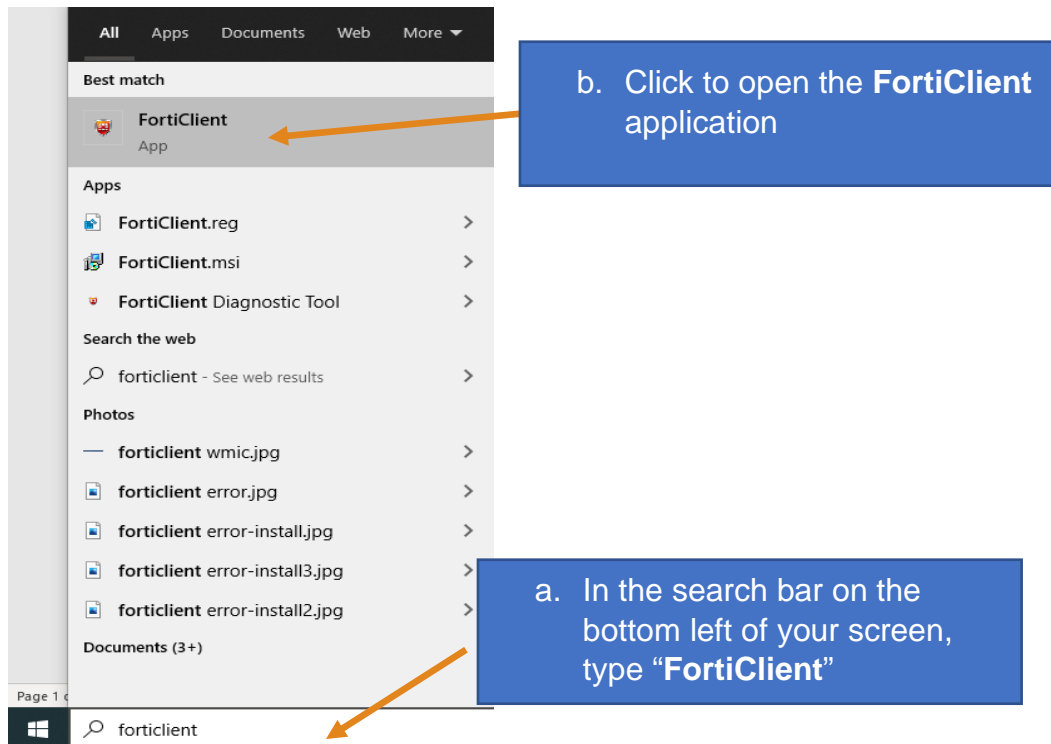

Thursday January 14, 2021

**Purpose:**

This document will help you to confirm if your notebook is connected to FSRA's VPN while outside the office. You do not need to connect to the VPN if you are on premises/in the office.

**Procedure:**

1. Open the **Forticlient** application
  - a. In the search bar on the bottom left of your screen, type "**FortiClient**"
  - b. Click to open the FortiClient application

2. In the FortiClient application, click **Remote Access** on the left.
3. It may take a few seconds to confirm your connection. If you see **VPN Connected** in the application window, it means you are connected to FSRA's VPN. If not, enter your FSRA credentials to login.
